Becontree Primary School

It is with great pleasure that I can inform you that Learning Hive will be partnering with Becontree Primary School to deliver our specialised after school tutoring provision. The program will start from the **January 2023**, and we are very excited to be working with your school.

[Learning Hive](#) has been working in education for over a decade and is an Ofsted registered child-care provider. We have also been accredited by the [Department for Education as a National Tutoring Partner](#). We have seen first-hand the commitment, passion, and dedication that schools show their pupils. Learning Hive will work in partnership with the school to further enhance the potential of pupils through:

- Summative and formative assessments
- Individual Learning Plans
- Meticulously dedicated resources
- Small group tuition
- Regular feedback to parents

Learning Hive complements the school with this supplementary tuition service in Maths and English, that is matched in commitment, passion, and dedication to the school. We offer competitive rates of **£10 an hour** and in some cases, offer parents who work part time (between 16-25 hours) and are in receipt of benefits (HMRC or Universal Credit) **the sessions at little to no cost.**

We work with schools to support additional learning, social development and to contribute to academic excellence with no additional cost to schools.

Our partnerships with schools make a true tangible difference to the lives of all children and at the same time help and supports schools in relieving them from high workloads and pressure.

Our programme ensures the necessary additional lessons are aligned with the school's pedagogical principles, to ensure they build on prior knowledge, using methodology that they are familiar with.

We will be holding sessions for parents at the school so you can find out more. For us to start at the school we need to enrol at least **30 students**, if you are interested then please contact Learning Hive on the number below or [register](#) on-line and see if you qualify for the subsidised option.

Kind regards,

Learning Hive
