

Ziggle's Road Safety Challenge

10 ways to stay safe on the roads

1. Keep looking and listening all the time when crossing a road.
2. Remember that, if you are little, drivers cannot see you very easily.
3. Always try to use a pedestrian crossing if you need to cross a road.
4. When you go out at night, wear reflective clothing so drivers can see you.
5. Do not play in the road.
6. Always wear a seat-belt in a car.
7. Don't cross a road on a corner - find a safer place where you can see what's coming.
8. At a pedestrian crossing, do not cross the road when you see the 'little red man'. Wait until you see the 'little green man'.
9. Try not to stand between two parked cars.
10. Never lean out of a car window.
