

Maths Week England

# Outdoor Maths Challenges

## for Reception

Maths Week England

**Maths activities you can do outside.**

**1.**

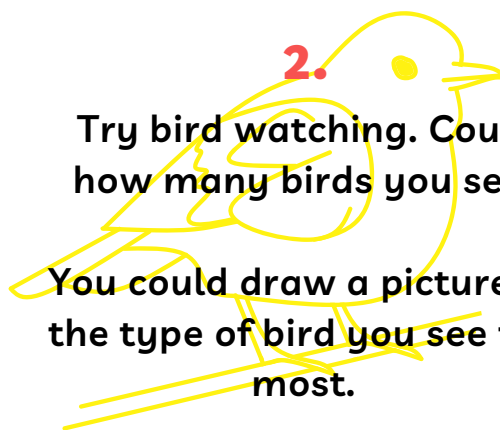

Find objects that are different lengths.

Can you lay them in order from shortest to longest?

**2.**

Try bird watching. Count how many birds you see.

You could draw a picture of the type of bird you see the most.

**3.**

Use sticks to make some 2D shapes.

Can you make a square, a triangle and another different shape?

**4.**

Go on a number hunt outside. Look for different digits.

Can you find all of the digits from 0 to 9?

**5.**

Fill ten bottles with water and make your own bowling game.

Knock down the bottles with a ball and count how many are left standing.

**6.**

How many times can you bounce a ball in one minute?

Challenge other people you live with to see if they can beat your score.
