

Year 1 Home Learning Ideas

Spring A 2026

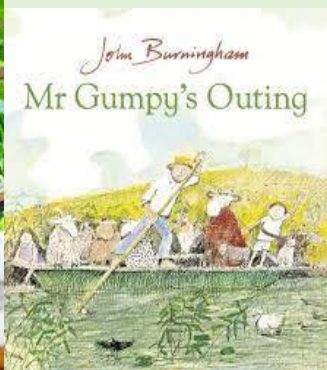

These optional Home Learning ideas are linked to the learning areas covered this half term.

Be an Author...

We will be reading stories written by the author John Burningham.

- Research and present information about John Burningham in any form.
- Read a story by John Burningham and then draw the main characters and label their characteristics.
- Learn the story by heart and retell it using different voices for the characters.

Be a Mathematician...

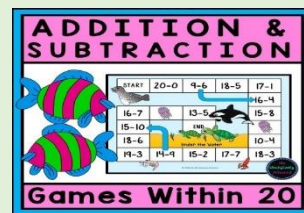

Our unit for the first 2 weeks will be 'Time':

- sequence daily activities
- know the months of the year
- match months to the correct season
- read, write and tell the time to o'clock and half past on an analogue clock

Work on number:

add and subtract numbers to 20, then 50

Design and Technology

Linked to our work on the history of toys, can you design and make your own puppet.

- Which materials did you use and why?
- You can use your puppet to make a puppet show for your family

Be a Historian...

We will learn about toys from the past.

- Talk to parents and grandparents about the toys they had when they were children.
- How were they different to toys today?
- Can your parents/ grandparents teach you a game, song or rhyme from their childhood.
