

22/03/2019

Dear Parent,

We have received funding from The Young Londoners Fund to provide a new group for young people with Autism accessing mainstream school

The new project details;

- Funded by The Young Londoners Fund.
- Supporting young people 10-16 years old with High Functioning Autism who are accessing mainstream school.
- Living in Havering, Barking & Dagenham or Redbridge.
- We aim to support the young people to learn the skills required to reach their full potential.
- The project will be delivered in a two hourly, evening weekly basis at our premises in Becontree or the Royals at Rainham (During term times).
- The modules include travel training, basic living skills, healthy life styles, social skills and safer relationships.
- Community activities allowing the young person to become comfortable and competent in accessing mainstream environments.
- In addition to the modules we will include enjoyable and stimulating activities in a safe space where members can meet and make friends and have fun.

We believe this project is an amazing opportunity to support young people with high functioning Autism to learn the skill which will support them in their everyday lives.

Please contact me via email at Activities@sycamoretrust.org.uk or on 0208 517 9317 for a project referral form or if you require any additional information

Kind regards

S Cornell

SUPPORTED BY

MAYOR OF LONDON

New Group supporting young people with high functioning Autism who are accessing mainstream education

Supporting young people 10-16 years old with high functioning Autism
who access a mainstream school and live in Havering,
Barking & Dagenham or Redbridge.

The project consists of five modules designed to enable young people to
learn the skills required to live and contribute to society, encouraging
those individuals to reach their full potential. The modules include travel
training, basic living skills, healthy life styles, social skills and safer
relationships. In addition to the modules we will include enjoyable and
stimulating activities in a safe space where members can socialise, meet
and make friends and have fun
