

Good morning children,

I knew class 5C's time was coming but I didn't expect to see what I saw on my camera this morning! These cheeky elves have been up to their old tricks once again and Mrs Ziane was not right – they are definitely naughty **AGAIN** this time around!

Something wasn't right when I spotted that my door signs had been turned upside down, just like they did last year. Not only that but they also left me a little taunting message!

My Friday had just got a lot worse!

It wasn't until I checked my cameras when I discovered that they had created their very own zip line across my door with toilet roll! My poor class now have to weave and duck their way in to the classroom this morning.

The cheeky pair even helped themselves to my stash of coke and even left me a little present in the bottom of the glass! **YUCK!**

They must've settled down around about midnight going by the camera footage to watch a little YouTube, however I think their UTUBE isn't as exciting as yours!

Please keep a look out children, we can't let this go on for much longer!!!
