

Dear Mrs Ziane

**I had a blast at Becontree in 2022,
Making a mess but then caught by you (and those pesky kids!)**

**Still locked in the safe or so you hope...
But you left a drill in there, what a dope!**

**By drilling a hole, out I get
I sure do have a growth mindset!**

**Free again but where could I hide?
Under the floorboards until Christmas time?**

**Those bumps that appeared in the office floor
You wondered what caused them? It was me of course!**

**Whilst digging a tunnel and making a bend,
Who'd have believed it, I met a friend!**

**Imagine the horror on the builders' face
They lifted the floorboard and found me and my mate!**

**We thought they had caught us, but just like you
They weren't quite quick enough and away we flew!**

**So, I'm back in school for more festive fun
Double fun this year with help from my chum!**

**You struggled to catch one elf, you'll never catch two,
Double trouble this Christmas for all of you!**
