

So for my World Book Day book I decided that it was so hard because I read so many books and it is difficult to choose from. So my book is my Guinness World Record 2021 I chose this because when you get the right answer from the book it always has something like point 1 or 2 for an answer. The reason why I chose this is because when I look at other books they give you information but with my book it gives you all the extra details for the answers and interesting facts. Also with this book if you get bored with like the space page there is like over 200 different pages of stuff like football/ basketball/ cricket /tennis /baseball and that is only 5. There is over 195 more pages of fun interesting facts of stuff you don't even know that was real. I meant if you never knew about how many lollies can someone eat in 1 minute the answer is 23. So this is my world book day review from Tommy for the Guinness World Record 2021.
