

Hi! I'm Tya and I'm not reviewing a book, but a webtoon. Its called Ghost Wife and you can find the link here: [Ghost Wife | WEBTOON \(webtoons.com\)](https://www.webtoons.com/ghost-wife) .There's 134 episodes in total, plus an ending.

The story is about a normal teenage girl called Liz, who one day finds a ghost boy called Damon, who wants to make her his wife. He gives her a mark and afterwards, everywhere she goes, she sees ghosts lurking in her school and all around. There are even monsters in her school that are students. Damon goes to school with her, and stays at her house, and they're accompanied with another demon called Drake, and a crocodile-looking monster they befriended who lives in their school lake called Jade. Drake starts to like Liz too, but he knows that Damon forbiddens it, since Liz is basically his ghost wife. Sometimes there are fake students who are monsters wanting to kill Liz, but everytime, Damon comes and kills the

monsters. The reason why Damon went to marry Liz was because in her old life, she was blind, in his mountain (he was a mountain ghost) and she died by his monsters, which made him fall for her, since he helped her. A few years later, they get married and have a child who's half human and half like his dad. Then, Liz dies, since she married a ghost, and Damon and Drake fight to get her as their wife in her next life.
