

The boy at the back of the class review

By Rayna Ali

I chose this book because it was an adventurous book which my genre is mystery .

So I recommend this book if you like mystery and surprises.

Its lively plot of a refugee kid who came to England from Syria without his parents and the kids at the back of the class decide to help and be friends with the refugee kid . The resulting scenario is steeped in serious business, and it's an overall enjoyable.

It's a really enjoyable book if you read it I hope you enjoy it.
