

Links list for Grammar, Spelling and Maths

Some parents requested some help with supporting their children through Year 6. To help, we have created a links list for some good sites that are out there that you can access.

Grammar:

<http://learnenglishkids.britishcouncil.org/en/grammar>

Includes grammar videos, grammar games, grammar worksheets that can be printed and grammar reference cards that also can be printed.

http://www.bbc.co.uk/bitesize/ks2/english/spelling_grammar/

Covers spelling and grammar with games and quizzes as well as explanations.

<http://www.funbrain.com/grammar/>

Identifying parts of speech

<https://uk.ixl.com/ela/year-6>

Outlines most of the concepts taught in Year 6 and offers practise on these.

Spelling:

A lot of the sites above also deal with this, however, this site below offers a 30 day free trial too or £9.99 for 12 months. TES is an education site created by teachers and other educational professionals.

<http://www.tesspaq.com/>

SPAG stands for SPELLING, PUNCTUATION and GRAMMAR

Maths:

<https://www.themathsfactor.com>

A site created by Carol Vorderman, which again offers a free trial. It includes videos explaining concepts, practise and then a timed test. It looks very good and may be worth considering as a way to support your child's maths this year.

<https://uk.ixl.com/math/year-6>

A site that offers practise on concepts taught in year 6. Same as the English one.

Again, many of the sites above have Maths and English on them.
