Should a new football stadium complex be built in the town of Denton?

Recently, Denton United said ^{that} they are planning to build a new football stadium for people to come and enjoy watching football matches. There will be lots of ^{improve} nice experiences however some people do not want the stadium because it is ^{is negative} ~~bad~~ for the animals and the community.

Firstly, ^{vs} if it is cold outside they have hi-tech retractable roofs so that everyone is dry and warm while they are watching the game, ~~but~~ ^{but} they enter dry and warm and leave happy because the team they voted for won.

18.11.25 Denton wants to make sure that people actually enjoy ^{going} coming to the arena and this new stadium that they are building are people's favourite football arena.

Secondly, no-one can deny that not every one can go especially people

in wheelchairs because there are multiple ramps so that they can enter without any problems in their way. The arena also has 45,000 seats! And they are not those broken, hard, plastic chairs, they are lovely, comfortable chairs that once you sit on it, it feels like you can't get off.

And finally, once the game had finished and you are thirsty, or

① hungry or you want something to celebrate the victory, there is a 20.11.25 cafe, bar and a restaurant with delicious food and fancy drinks like mocktails, mojitos and if you want to see what else they have, it's a pretty good idea to come here for your self.

If it's your birthday they will make sure that you have the most awesome birthday ever. They will give you free drinks along with some freebies.

On the other hand, some people may not like the retractable roofs, the seats or the cafe they do not even want the arena to be built. People want the Instead of wasting

all of that space on a football stadium that no-one even asked for, we could just use it for a good cause like homes for animals or vets or even hospitals. But since some people ^{are} ~~are~~ so cruel ~~that they don't~~ ^{not} care about animals they just care about ^{this} money. And in ~~that~~ case the cruel people are the people of the stadium because they rather let all the animals die ~~than~~ ^{at} losing all ~~their~~ money.

Secondly, they feel like ^{they} ~~one~~ ought to do it but actually no-
② one is forcing them to do it. They just want to do it for the greed. and when the whole building is complete, there will be an awful amount of traffic because everyone is rushing to go to the Wembley football stadium to get the best drinks, the best food and the best services. People have important places to go and they have a certain amount of time to go there but since there will be lots of traffic around there area, they can not go there in time.

Finally, building the stadium will destroy the rivers centre by disrupting people that are trying to rest or sleep on it's also it's annoying the animals that live nearby because of all the sound in the making of the building one not letting the animals sleep. Some animals do not like the loud noise therefore the building the stadium will take along time ^A which animals will be forced to leave their homes and find another quiet place to live and sleep.

^{In} So in conclusion, people think it is a good idea to build the arena because people can enjoy going to the football stadium and watching the amazing game. However many people do not like the idea of ripping up the beautiful nature, building roads that no-one wants because they feel like the most important and most loved part in the world is just being thrown away with all of the stinky rubbish.
