

Naughty Elves Spotted in 2D

Take a look to see what those mischievous elves got up to this morning!

I knew something was wrong when I first got in this morning as the class name on the door had been scribbled all over!

I rushed inside and I couldn't believe my eyes when I saw the naughty elves wrapping the classroom whiteboard with toilet tissue!

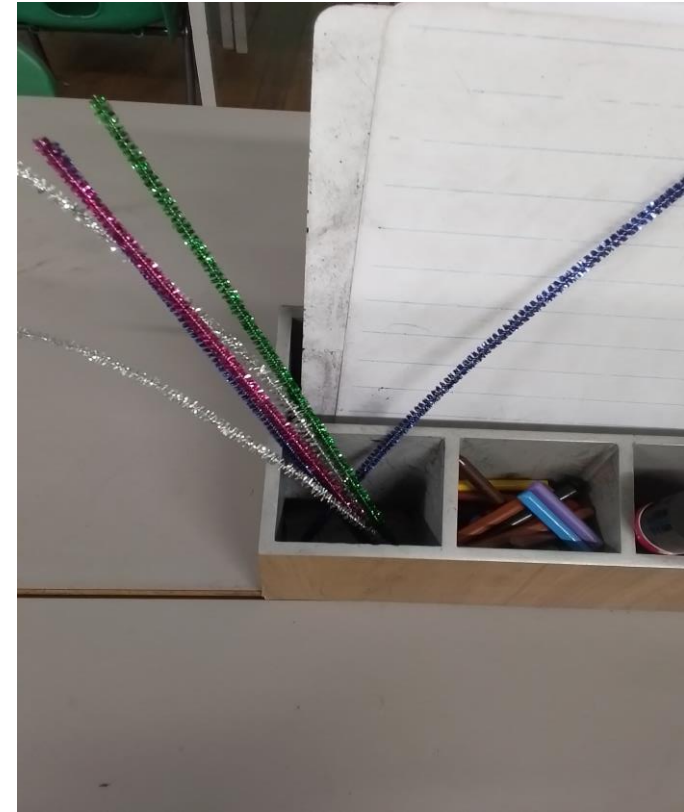

I quickly launched forward to catch them but they ran off and I ended up ripping off the toilet paper to reveal this!

I looked around for them but then I saw that Bertie the Bear had been wrapped up in tissue paper too!

I grabbed a pair of scissors from the pencil pots to cut Bertie the Bear from the tissue paper then realised that the naughty elves had taken all the class pencils and whiteboard pens and replaced them with pipe cleaners!

I then heard lots of giggling so I turned around and the naughty elves ran out of the classroom into the direction of the Key Stage 2 Playground. I chased after them but they were too quick!

These naughty elves must be stopped!
Please keep looking for them.

P.S. If anyone sees 30 pencils and 30 whiteboard pens around please could you return them back to us!
