

Poppy Recycling Project

Return by Monday 3rd
November 2025 to your
class teacher

For our recycling half term project, we are linking it to **Remembrance Sunday**, which will take place on 11th November 2025 to commemorate the end of World War I.

We would like the children to create a **model or a piece of artwork of a poppy using recycled materials**. We would like you to be as creative as possible. Write your name and class on your creation. They will be part of a display in school and photographs will be put on the school website.

*Recycling helps reduce
pollution, reduces
landfill and saves energy
and resources.*

For safety reasons no glass jars please.

Strengthening the partnership between home and school.
